State Committee:

Chairman:

Gary Churchill

Members:

Ron Chastain, Sarah Dunklin,
Nathan Reed, & Vivian Wright

State Committee Meeting:

2nd Wednesday and
Thursday of each Quarter

State Executive Director:

David Curtis

Executive Officer:

James Culpepper

Message from the SED

FSA is temporarily restricting in-person visits for numerous Service Centers in Arkansas because of elevated rates of coronavirus community spread, but employees will continue to assist agricultural producers with programs and services. For Service Center information, visit <https://offices.sc.egov.usda.gov/locator/app>

I would like to thank all the eligible producers that participated in the County Communities Elections this year. County committee members are a critical component of the day-to-day operations of our Agency. They help deliver programs at the county level and work to serve the needs of all local producers. All recently elected county committee members will take office in January 2021.

Please be aware that USDA is increasing incentive payments for practices installed on land enrolled in the Continuous Conservation Reserve Program (CRP). FSA is upping the Practice Incentive Payment for installing practices, from 5 percent to 20 percent. Additionally, producers will receive a 10 percent incentive payment for water quality practices on land enrolled in CRP's continuous signup.

As the Holiday Season is upon us, Arkansas FSA would like to extend best wishes to all. Have a safe Holiday Season and we wish

Administrative Officer:
Sharon Baker

Farm Programs:
Terri McManus

Farm Loan Programs:
Lori Lavender

you a New Year full of success. We value our relationship with all our customers and look forward to working with you in the future.

For additional questions and assistance, contact your local USDA service center. To locate your local FSA office, visit farmers.gov/service-locator.

Until Next time...

Please contact your local FSA Office for questions specific to your operation or county. To find contact information for your local office go to www.fsa.usda.gov/ar.

Sign in/Sign up for an Online Account

Farmers, ranchers and agricultural producers have online options to access USDA programs. Through USDA's new streamlined process, producers doing business as an individual can now register, track and manage their applications for the Market Facilitation Program (MFP) on the secure and convenient farmers.gov. Producers doing business as an individual first need to sign up for the Level 2 eAuthentication access. Currently USDA eAuthentication does not have the mechanism to issue accounts to businesses, corporations, other entities or for anyone acting on behalf of another individual or entity.

- Step 1: Create an online account at www.eauth.usda.gov
- Step 2: Complete identity verification by either using the online self-service identity verification method or by completing the identity verification in-person at your USDA Service Center.
- Step 3: You're enrolled
- Step 4: Contact your local USDA Service Center to have your new Level 2 account linked with your USDA customer record
- Step 5: You're ready to Log In

Or go to your local USDA Service Center and our supportive staff will help you sign up for Level 2 Access right in the office! They will get you online so you can create an online account at farmers.gov/sign-in. You'll complete identity verification right on the spot. You're enrolled! Users with a secure Level 2 eAuthentication ID linked to their USDA customer record can apply for select USDA programs, view and print farm maps and farm records data. Enrolling is easy! Visit farmers.gov/sign-in to learn more.

To locate a service center near you or use online services not requiring eAuthentication access, visit farmers.gov. For technical assistance, call the eAuthentication help desk at 1-800-457-3642.

Is the Noninsured Crop Disaster Assistance Program Right for You?

Farmers and ranchers rely on crop insurance to protect themselves from disasters and unforeseen events, but not all crops are insurable through the USDA's Risk Management Agency. The Farm Service Agency's (FSA) Noninsured Crop Disaster Assistance Program (NAP) provides producers another option to obtain coverage against disaster for these crops. NAP provides financial

assistance to producers of non-insured crops impacted by natural disasters that result in lower yields, crop losses, or prevents crop planting.

Commercially produced crops and agricultural commodities for which crop insurance is not available are generally eligible for NAP. Eligible crops include those grown specifically for food, fiber, livestock consumption, biofuel or biobased products, or be commodities such as value loss crops like Christmas trees and ornamental nursery, honey, maple sap, and many others. Contact your FSA office to see which crops are eligible in your state and county.

Eligible causes of loss include drought, freeze, hail, excessive moisture, excessive wind or hurricanes, earthquake, flood. These events must occur during the NAP policy coverage period, before or during harvest, and the disaster must directly affect the eligible crop. For guidance on causes of loss not listed, contact your local FSA county office.

Interested producers must apply for coverage using FSA form CCC-471, "Application for Coverage," and pay the applicable service fee at the FSA office where their farm records are maintained. These must be filed by the application closing date. Closing dates vary by crop, so it is important to contact your local FSA office as soon as possible to ensure you don't miss an application closing date. At the time of application, each producer will be provided a copy of the NAP Basic Provisions, which describes how NAP works and all the requirements you must follow to maintain NAP coverage. NAP participants must provide accurate annual reports of their production in non-loss years to ensure their NAP coverage is beneficial to their individual operation.

Producers are required to pay service fees which vary depending on the number of crops and number of counties your operation is located in. The NAP service fee is the lesser of \$325 per crop or \$825 per producer per administrative county, not to exceed a total of \$1,950 for a producer with farming interests in multiple counties. Premiums also apply when producers elect higher levels of coverage with a maximum premium of \$15,750 per person or legal entity depending on the maximum payment limitation that may apply to the NAP covered producer. The service fee can be waived for beginning, qualifying veteran, and limited resource farmers and rancher., These farmers and ranchers can also receive a 50 percent reduction in the premium.

For more detailed information on NAP, download the NAP Fact Sheet. To get started with NAP, we recommend you contact your local USDA service center.

USDA to Open Signup for the Conservation Reserve Program and CRP Grasslands in Early 2021

USDA today announced the 2021 signup periods for general Conservation Reserve Program (CRP) and CRP Grasslands offers. General signup for CRP will be open from January 4, 2021 to February 12, 2021; signup for CRP Grasslands runs from March 15, 2021 to April 23, 2021. Both programs are competitive and provide annual rental payments for land devoted to conservation purposes.

CRP and the many focused programs that come under it, like CRP Grasslands, are some of the most critical tools to help producers better manage their operations while conserving natural resources. CRP has proven to protect the Nation's valuable resources. Next year's signup gives farmers and ranchers an opportunity to enroll in CRP for the first time or continue their participation for another term.

Producers may apply by contacting their FSA office.

Enrollment Begins for Agriculture Risk Coverage and Price Loss Coverage Programs for 2021

Agricultural producers can now make elections and enroll in the Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs for the 2021 crop year. The signup period opened

Tuesday, Oct. 13. These key U.S. Department of Agriculture (USDA) safety-net programs help producers weather fluctuations in either revenue or price for certain crops, and more than \$5 billion in payments are in the process of going out to producers who signed up for the 2019 crop year.

Enrollment for the 2021 crop year closes March 15, 2021.

ARC provides income support payments on historical base acres when actual crop revenue declines below a specified guaranteed level. PLC provides income support payments on historical base acres when the effective price for a covered commodity falls below its reference price.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium and short grain rice, safflower seed, seed cotton, sesame, soybeans, sunflower seed and wheat.

2021 Elections and Enrollment

Producers can elect coverage and enroll in crop-by-crop ARC-County or PLC, or ARC-Individual for the entire farm, for the 2021 crop year. Although election changes for 2021 are optional, enrollment (signed contract) is required for each year of the program. If a producer has a multi-year contract on the farm and makes an election change for 2021, it will be necessary to sign a new contract.

If an election is not submitted by the deadline of March 15, 2021, the election defaults to the current election for crops on the farm from the prior crop year.

For crop years 2022 and 2023, producers will have an opportunity to make new elections during those signups. Farm owners cannot enroll in either program unless they have a share interest in the farm.

2019 Crop Year ARC and PLC Payments

FSA began processing payments last week for 2019 ARC-County (ARC-CO) and PLC on covered commodities that met payment triggers on farms enrolled for the 2019 crop year. In addition to the \$5 billion now in process, FSA anticipates it will issue additional payments by the end of November for 2019 commodities covered under ARC-Individual (ARC-IC) and additional commodities that trigger PLC and ARC-CO payments for which rates have not yet been published

Producers who had 2019 covered commodities enrolled in ARC-CO can visit the ARC and PLC webpage for payment rates applicable to their county and each covered commodity. For farms and covered commodities enrolled in 2019 PLC, the following crops met payment triggers: barley, canola, chickpeas (small and large), corn, dry peas, grain sorghum, lentils, long and medium grain rice, peanuts, seed cotton and wheat.

Oats and soybeans did not meet 2019 PLC payment triggers.

2019 PLC payment rates for the following covered commodities have not been determined: crambe, flaxseed, mustard seed, rapeseed, safflower, sesame seed, sunflower seed and temperate Japonica rice. Payment rates for these commodities will be announced at a later date.

Web-Based Decision Tools

In partnership with USDA, the University of Illinois and Texas A&M University offer web-based decision tools to assist producers in making informed, educated decisions using crop data specific to their respective farming operations. Tools include:

- Gardner-farmdoc Payment Calculator, the University of Illinois tool that offers farmers the ability to run payment estimate modeling for their farms and counties for ARC-County and PLC.
- ARC and PLC Decision Tool, the Texas A&M tool allows producers to analyze payment yield updates and expected payments for 2021. Producers who have used the tool in the past should see their username and much of their farm data already available in the system.

More Information

For more information on ARC and PLC, including two online decision tools that assist producers in

making enrollment and election decisions specific to their operations, visit the ARC and PLC webpage.

For additional questions and assistance, contact your local USDA service center. To locate your local FSA office, visit farmers.gov/service-locator.

Signature Policy

Using the correct signature when doing business with FSA can save time and prevent a delay in program benefits.

The following are FSA signature guidelines:

- A married woman must sign her given name: Mrs. Mary Doe, not Mrs. John Doe
- For a minor, FSA requires the minor's signature and one from the minor's parent

Note, by signing a document with a minor, the parent is liable for actions of the minor and may be liable for refunds, liquidated damages, etc.

When signing on one's behalf the signature must agree with the name typed or printed on the form or be a variation that does not cause the name and signature to be in disagreement. Example - John W. Smith is on the form. The signature may be John W. Smith or J.W. Smith or J. Smith. Or Mary J. Smith may be signed as Mrs. Mary Joe Smith, M.J. Smith, Mary Smith, etc.

FAXED signatures will be accepted for certain forms and other documents provided the acceptable program forms are approved for FAXED signatures. Producers are responsible for the successful transmission and receipt of FAXED information.

Examples of documents not approved for FAXED signatures include:

- Promissory note
- Assignment of payment
- Joint payment authorization
- Acknowledgement of commodity certificate purchase

Spouses may sign documents on behalf of each other for FSA and CCC programs in which either has an interest, unless written notification denying a spouse this authority has been provided to the county office.

Spouses cannot sign on behalf of each other as an authorized signatory for partnerships, joint ventures, corporations or other similar entities. Likewise, a spouse cannot sign a document on behalf of the other in order to affirm the eligibility of oneself.

Any member of a general partnership can sign on behalf of the general partnership and bind all members unless the Articles of Partnership are more restrictive. Spouses may sign on behalf of each other's individual interest in a partnership, unless notification denying a spouse that authority is provided to the county office. Acceptable signatures for general partnerships, joint ventures, corporations, estates, and trusts must consist of an indicator "by" or "for" the individual's name, individual's name and capacity, or individual's name, capacity, and name of entity.

For additional clarification on proper signatures contact your local FSA office.

Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

Farmers and ranchers can use the Farm Loan Discovery Tool on farmers.gov to find information on USDA farm loans that may best fit their operations.

USDA's Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

How the Tool Works

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will receive information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the Farm Loan Discovery Tool by visiting farmers.gov/fund and clicking the “Start” button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

About Farmers.gov

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The Farm Loan Discovery Tool is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the My Financial Information feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit farmers.gov/recover/disaster-assistance-tool#step-1 to find disaster assistance programs that can help their operation recover from natural disasters.

For more information visit farmers.gov,

USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants and beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their individual qualities. For farm loan program purposes, targeted underserved groups are women, African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal underwriting criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA offers Microloans through the direct loan program. Microloans focus on the financing needs of small, beginning farmer, niche, and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit fsa.usda.gov/microloans.

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA's farm loan programs and targeted underserved and beginning farmer guidelines, contact your local Service Center or visit fsa.usda.gov/farmloans.

Persons with disabilities who require accommodations to attend or participate in this meeting/function/event should contact their local County Executive Director or Rhonda O'Guinn at 501-301-3018, (TDD# or Federal Relay Service at 1-800-877-8339, and rhonda.oguinn@usda.gov).

USDA is an equal opportunity provider, employer and lender. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
